## Hi-Vis Hi-Lite

*\* Patent Pending*

The Hi-Vis Hi-Lite clips to the ratchet handle to help workers find and adjust nuts in dark areas. It directs light right to the wrench head and work area and frees both hands for working. Under normal lighting conditions, the light illuminates areas that are shadowed by the worker and his wrench.

A Hi-Vis Hi-Lite can be added to any Lowell Series 150 socket wrench.

- Model # 150
- Model # 151
- DoubleShots
- Triple Square Ratchet Lineman's wrenches
